

Sebastian Cardona

Systems Engineer · SRE · Cloud · Backend

Chihuahua, México | contact@sebastiancardona.dev | [linkedin.com/in/sebastiancardonadev](https://www.linkedin.com/in/sebastiancardonadev) | github.com/sebastiancardona-dev

SUMMARY

Engineer with 2 years of experience in cloud infrastructure and microservices at AutoZone, promoted from intern to mid-level engineer. Migrated a tier-5 platform to Google Cloud and operated it at a 99.999% uptime SLA. Currently exploring AI and cloud-native services.

EXPERIENCE

Systems Engineer

Feb 2026 - Present

AutoZone · I.T. Commercial

- Own backend services and cloud infrastructure for commercial systems on Google Cloud.
- Design scalable service architecture and RESTful APIs, applying SRE practices end to end: CI/CD, containers, autoscaling, and observability.

Associate Systems Engineer

Jan 2025 - Feb 2026

AutoZone · I.T. Marketing DevOps

- Migrated and modernized a critical Customer Service application to GCP: a tier-5 system held to a 99.999% uptime SLA, handling thousands of customer-account operations daily and autoscaling with traffic.
- Sustained near-perfect availability with 2 production incidents across 13 months.
- Resolved ~50 production support cases per month for marketing systems.

Backend Software Development Intern

May 2024 - Jan 2025

AutoZone · I.T. Marketing

- Built RESTful APIs and admin tooling with Spring Boot on a microservices architecture for AutoZone CareerPath, an HR platform now serving 1,500+ employees.

SKILLS

Cloud & Platform Google Cloud (GCP), AWS, Docker, Linux, Bash, Git

Reliability CI/CD, autoscaling, observability, incident response, Elasticsearch

Backend Java, Spring Boot, Python, REST APIs, microservices, SQL

PROJECTS

MoneyTrckr

In development

- Personal finance app bringing the clarity of a well-built finance dashboard to a mobile-first experience anyone can use.

EDUCATION

Engineering Degree, Software Management and Development

2022 - 2026

Universidad Tecnológica de Chihuahua

CERTIFICATIONS & LANGUAGES

- Python for Data Science, AI & Development, IBM / Coursera (2023)
- Spanish (native) · English (full professional proficiency, TOEFL certified)
